Recommendation: This has been the best proposal I have seen. We may not want to get the Touch™ because there may be a lot of push back from employees due to the fingerprint use, however, it is a nice feature to consider. We will not need the Year-End W-2/1099 or the Year-End ACA. I would like to accept this proposal.

With that said, we made the decision to partner with BASIC. I am very pleased with the relationship we have with BASIC. Everyone that I have had contact with has been friendly, knowledgeable, and very efficient. I have confidence in my payroll getting processed, employee matters being handled timely, and compliance being up to date and accurate. When I contact them, I feel like they care. That is important to us, and equally important to them. BASIC is top notch, with very competitive rates and a wonderful staff to work with.”
